

June 2015 Club Lub Dub Breakfast Event

The Halle Heart Children's Museum is holding a breakfast event on June 3, 2015 to share our mission and help spread the word about the work we are doing to help create a generation of healthier kids. Each year more than 30,000 kids, teachers and parents tour the Halle Heart Children's Museum to learn how to live a heart healthy life, and beginning this year we will educate thousands more kids now that we're open to the general public for the first time.
